LONDON MARKET LOWER IN ALL DEPARTMENTS.

NEW YORK STOCKS WERE DULL.

-Tone in Other Railroads Rather Soft-Money Easier.

REPUBLIC SPECIAL. New York, Oct 11.-The London market was lower on the day in all departments. with consols at 18% and American stocks 1/4 to 14 per cent below parity. The Bank of England did not change its rate, which remains at 4 per cent. The bank return showed a fairly strong proportion of reserve to liabilities, with a beavy loss of gold during the week, due principally to the withdrawals for Germany and Egypt. There were no withdrawals on the day for the United States. Quotations in discount and exchange in the various European centers were unsitered. It was considered that in expectation of gold from the Transvaal in the near future the Bank of England permitted its rate to remain unchanged, and the confidence there was reflected in some small advance in exchange in New York. It is anticipated here, however, that imports of gold will be made on any decline on ex-

change, in the local market the duliness of the previous day was again apparent and trad-ing was very largely professional. Strength was, however, shown in spots, consplcuously in Northern Pacific, where the buying was believed to be for strong interests. It more than offset the sales by arbitrage houses, supposed to be for Berlin account. The tone in the other railroad stocks was rather soft and there was a tendency to sag wherever stock was offered. There seemed to be rather persistent selling in Missouri Pacific and the grangers cased off a little on small pressure. Union Pacific was heavy and room traders took advantage of the rather Union Pacific was heavy and extensive bull account open to offer the stock down. People's Gas was inclined to be weak on the increasing litigation in Chi-cago. Sugar was fairly steady on the ar-rival of the first of the Java crop. The buy-ing in Manhattan continued good.

The afternoon was marked by a sharp rally in People's Gas on the short interest

accompanied by rumors of a settlement. The railroad stocks were very dull, but fairly hard, with Northern Pacific neticeably firm. Missouri Pacific was inclined to be heavy, but was only dealt in to a limited extent. The tractions were generally hard. Money eased off in the afternoon and the borrowing demand showed some little short interest. News on the Chinese question was merely negative and there was no movement in the European markets to indicate that the position was at all charged. The demands formulated by the striking miners are heavier than had been expected, and put the settlement a little further off. Fifty additional injunctions were granted against People's Gas to-say. Most of the selling of this stock seems to have come from small politicians, and it is noticeable that there is little pressure from the large Chicago houses. Demand Sterling is quoted rather harder at taxingst. At Money in good demand and the tendency seems to be harder. The banks have lost to the Treasury considerably over \$1,00,000, so far this week, but the drain for moving the crops seems to have been checked for the moment. Money eased off in the afternoon and the

With the exception that the dealings were larger, here was no change of significance in the local stock and bond market this mering. Less than the usual number of quotations were made, and outside of the two in which there were trades, these was only a passing interest taken in the market.

There were better selling and buying orders in the market for United Railways 8s. and during the morning 19,50 were traded in at 19.2 and there were buyers for more at 183, but \$81.2 was saked.

The market for United Railways preferred and transit stock were quiet and about unchanged.

A quiet demand and one that was castly satisfied was had for Granite-H-Metallic mining stock, and sales of 20 charges were made at 12.5 and 12.5 respectively, the latter being bid at close was nonlined to bids.

There was no interest shown in street railway bonds, outside of those mentioned above, and no quotations were made.
